- The system continually monitors Arsenic media life
- Confirmation message your filter is working
- No hassles of regeneration chemicals, salts or additives
- A variety of size systems are available that are easy to maintain and service

**Culligan®**

## The Only Certified Whole-House Arsenic Reduction Filter On The Market.

Arsenic is a semi-metal element in the periodic table. It is odorless and tasteless. Because it occurs naturally in the environment and as a by-product of some agricultural and industrial activities, it can enter drinking water through the ground or as runoff into surface water sources. The only way to remove Arsenic from your water is with filtration.

Do You Need An Arsenic Water Filter?

Afraid you might have arsenic in your water?

Your local Culligan Man can analyze your water, identify any impurities<sup>1</sup> and recommend a household water treatment solution to give you clean, great-tasting water and better peace of mind. If you do want to reduce arsenic in your water levels, the Culligan Whole House Arsenic Reduction Filter can to do just that.

Your local Culligan Man can recommend the right water conditioning solution for you.

<sup>1</sup>Impurities may not be in your water.

## Product Specifications

### Culligan's Exclusive Iron-Cleer Design Technology:

- Exclusive Culligan Soft-Minder® meters monitors daily water use and provides advanced system diagnostics.
- Easy to read display with digital clock let's you know when you have filtered water and warns of system malfunctions.
- Optional remote display makes it possible to control and monitor the filter from virtually anywhere in the home.†
- Optional modem can alert Culligan dealership if filter needs service.

### Exclusive reliable design:

- Exclusive, non-corrosive valve. The motorized pistons provide more reliability in problem water than rotary valve systems.
- One-inch control valve reduces the chance of water pressure drops throughout the home.
- Efficient one-inch Cul-Flo-Valv®, lets you bypass the system without losing pressure for times when filtered water is not needed (for water the lawn, etc.).
- Culligan's high-impact Quadra-Hull® tank provides added protection with four-layer design that resists UV rays, rust and corrosion. The tank has a limited lifetime warranty.

### Arsenic Reduction Media:

High adsorption media provides maximum Arsenic capacity that assures stability and long life. The high grade quartz underbedding evenly distributes water to maximize flow rates.

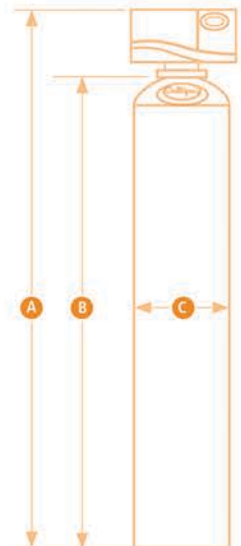

Optional remote display shown.

† Requires 120 VAC.

### Product Dimensions

MODEL	A	B	C
